Caroline:

Looks like Media call may change format and length but no indication yet that call-in number or access code will change. Below is a link to the Agency-wide website which is expected to go live this morning. It will contain info on media calls. I can't get in but have requested access. As soon as I'm able I'll send you whatever updated info is posted.

Laura Jenkins

Media Officer

**Subject:** Fwd: Draft website for Gold King Mine

Can we change references to website on all fact sheets, releases etc

Also sounds like for both congressional call and media call might be changing format and length.

Libby can you inform? Should bring up on Media planning call this morning at 9.

Hey everyone,

We're positioned to go live once we get the 'go'

To see the most up to date site:

it will ask you to log in, then jump to the page

<https://wcms.epa.gov/user?destination=goldkingmine>

Once we're live the link will be: [www.epa.gov/goldkingmine](http://www.epa.gov/goldkingmine)

Christine,

This really looks good. One comment, which I'll pursue with Jeff tomorrow, is that I think that we should send visitors to a page that interprets the sampling data, rather than link directly to the data from the home page. We don't have that interpretive language, yet, but hope to get it tomorrow. - George

**Subject:** Draft website for Gold King Mine

Hi everyone, I've created a draft site for the Gold King Mine. To view it,

- log into the Web Content Management System at <https://wcms.epa.gov/user> with your LAN ID and password.

- If you can't log in, send an email to Web CMS Support with your LAN ID; they usually take care of the odd log-in problem within a few minutes.

- Then go to <https://wcms.epa.gov/goldkingmine>

The URL for this site when published will be [www.epa.gov/goldkingmine](http://www.epa.gov/goldkingmine). There should be no reason to type in "www2" as part of the URL; "www" should be sufficient.

Jeff Morin in our office will be taking over for me tomorrow morning to code changes. Jeff can publish it once it's ready, and can ask Web CMS Support to redirect the existing Region 8 page to the new site. Staff in Regions 6, 8 and 9 have access to edit and publish changes to the site.

Notes on various pages:

- **Home page** –

- not sure if you want the claims form to be this prominent. If not, there are other pages that link to it. Claims form PDF is copied from the OSC site.
- I have a included placeholder for a link to a page that explains what the data indicate
- We can also easily add an FAQs page and a link on the home page to the FAQs

- **Contact Us** – emails sent using the form will go to [r8eisc@epa.gov](mailto:r8eisc@epa.gov) unless that feature is changed.

- **Who's responding/EPA role page** – all content of this page comes from the R8 updates, but I've organized it, added links, taken out words like "yesterday" and "tomorrow" and added a definition of flocculant agents. This page will have to be kept up-to-date daily.

- **Updates page** – new updates can easily be added

- **View raw data page** – the three PDFs from the OSC site are now copied on this site.

Let me know if you have questions. I'll be available tomorrow at 202-306-7367.
